

**News from Year 1:** Year 1 children arrived in school last Wednesday to discover a monkey in their classroom. They wrote notes to the monkey to try to get him to come down from his hiding spot. When this didn't work they designed, made and evaluated ladders. Eventually the monkey came down. The children have since written fact files with information about monkeys and created posters detailing how to look after a monkey. The children are currently looking after the monkey over night and keeping a diary to record what they get up to.

## Year 2 Class Blog - Little Rabbit Foo Foo

We found 3 big messes in our class last week. We used clues that they had left to investigate who had made the messes. It was the naughty bus! We read the book the naughty bus left us and found out about the other adventures he had been on. We found out about the naughty buses family tree and learnt about his grandparents, looking at how buses have changed through the years.

## Year 6 Class Blog - Gangsta Granny

In Gangsta Grannies class, it is very different to year 5, preparing for SAT's and getting ready for learning that is more independent. The way we learn independently is more reading and more research than when we were in year 5, we do mini challenges and mini assessments. Sometimes we even have table competitions, to keep us interested by working more as a team. Our team challenges can lead to prizes and sweat treats.

This term we are studying Mission Survival (an interesting book written by Bear Grills). We have been drawing tropical animals and helped to design our rainforest class display. We are also going on a Spy Adventure trip where we get to problem solve and do mission challenges.

The popular things in maths and English are the challenges we get from the subject such as – Children's count down and conundrums.

English is great fun as we are learning much more about descriptive writing and preposition.
